About the company:

The Max & Otis Shirt Company was formed in May of 2005 by sisters Brandy & Sherry. Driven by the sheer volume of friends and relatives becoming pregnant and the never-ending search for unique gifts, we began designing and printing our own sassy shirts. The response was positive and encouraging to start selling our designs and thus the Max & Otis Shirt Company was born.

Brandy J. , Business Development

An architect by trade, Brandy currently designs commercial retail stores for a private developer along with several other ventures including head of her own solo architecture practice, a hand-crafted glycerin soap business and an on-line community for Asians in mixed marriages. In her spare time, Brandy is an avid golfer, loves the theatre, does volunteer work and just started tap dancing lessons. Currently living in San Diego with her very understanding husband, Marc and their two pets, Brook, a black labrador retriever and Peanut, a tan and white tabby.

Sherry L. , Creative Director

A registered nurse currently located in Seattle, Sherry comes up with the sassy slogans printed on the shirt while being inspired in the Labor & Delivery ward of her hospital. Sherry is an avid traveller both abroad (visiting numerous countries in Europe, Asia, and Down Under) and throughout the states having lived in Hawaii, San Francisco, New York, and Southern California before heading towards the Northwest. She enjoys beading jewelry, photography and watching all incarnations of CSI and Law & Order. Sherry is also the proud owner of the real Max & Otis, the namesake of this company.

Max & Otis

Max & Otis are mini Chihuahuas born in February of 2003. Brothers and best friends yet completely opposite in temperament and personality. Max is highly energetic and loves to give love. He's got springs for legs and can climb out of any enclosure, even if its 5' high. Otis loves to have his belly rubbed and would rather be cuddled than go for a walk. Both love to go on road trips and sunbathe (although they tend to forget the sunscreen).
